Master of Arts in Human Services Administration - Online

Program Description

The Master of Arts in Human Services is a 36-semester-hour degree that will provide a theoretical and experiential understanding of the human services profession. This program will be grounded in a core of specialized courses with additional course work in an administrative specialization. Graduates of this program will be prepared to assume leadership positions in a variety of settings including: social services, education, behavioral health management, and healthcare.

Throughout this program students will:

- Integrate the principles of the human services profession with biblically informed values.
- Demonstrate collaborative and effective problem-solving skills using multiple theoretical approaches.
- Develop administration skills that require the application of theory in a variety of human services agency situation and settings.
- Research contemporary issues in human services to provide practical solutions, and communicate results through clear, concise and appropriate media.
